### Trade name: Touch 'n Seal Mine Block Mortar (Contd. of page 1) 🗙 Xn; Sensitising R42/43: May cause sensitisation by inhalation and skin contact. Xi; Irritant R36/37/38: Irritating to eyes, respiratory system and skin. R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. · Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Warning! Pressurised container. · Classification system: The classification is according to the latest editions of the EU-lists, and extended by company and literature data. The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company. · 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. · Hazard pictograms GHS07 GHS08 Signal word Danger · Hazard-determining components of labelling: diphenylmethanediisocyanate, isomeres and homologues tris[2-chloro-1-(chloromethyl)ethyl] phosphate 4,4'-methylenediphenyl diisocyanate trans-dichloroethylene Hazard statements The following Hazard Statements are applicable only to the EU regulations and not the US GHS regulation: H412. H229 Pressurised container: May burst if heated. H332 Harmful if inhaled. H315 Causes skin irritation. H319 Causes serious eye irritation. H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H317 May cause an allergic skin reaction. H351 Suspected of causing cancer. H335 May cause respiratory irritation. H373 May cause damage to organs through prolonged or repeated exposure. H412 Harmful to aquatic life with long lasting effects. **Precautionary statements** P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking. (Contd. on page 3)

# **SECTION 4: First aid measures**

### · 4.1 Description of first aid measures

## General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Take affected persons out into the fresh air.

### After inhalation:

Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

(Contd. on page 5)

Printing date 25.11.2014

Trade name: Touch 'n Seal Mine Block Mortar

Revision: 25.11.2014

	(Contd. of page 4)
In case of irregular breathing or respiratory arrest provide artificial respiration.	
After skin contact:	
Do not pull solidified product off the skin.	
Immediately wash with water and soap and rinse thoroughly.	
If skin irritation continues, consult a doctor.	
In cases of frostbite, rinse with plenty of water. Do not remove clothing.	
· After eye contact:	
Immediately remove contact lenses if possible.	
Rinse opened eye for several minutes under running water. If symptoms persist, consult	t a doctor.
· After swallowing:	
Unlikely route of exposure.	
Rinse out mouth and then drink plenty of water.	
Do not induce vomiting; call for medical help immediately.	
4.2 Most important symptoms and effects, both acute and delayed	
Asthma attacks	
Breathing difficulty	
Dizziness	
Coughing	
Allergic reactions	
Irritant to skin and mucous membranes.	
Irritant to eyes.	
May cause respiratory irritation.	
Gastric or intestinal disorders when ingested.	
· Hazards	
Danger of impaired breathing.	
Danger of pulmonary oedema.	
Danger of pneumonia.	
Possible risk of irreversible effects.	
Harmful if inhaled.	
Danger of serious damage to health by prolonged exposure.	
Limited evidence of a carcinogenic effect.	
• 4.3 Indication of any immediate medical attention and special treatment needed	
Severe allergic skin reaction, bronchial spasms and anaphylactic shock are possible.	
Treat skin and mucous membrane with antihistamine and corticoid preparations.	
Contains diphenylmethanediisocyanate, isomeres and homologues, 4,4'-methylenediph	nenyl diisocyanate.
May produce an allergic reaction.	, ,
In cases of irritation to the lungs, initial treatment with cortical steroid inhalants.	
Medical supervision for at least 48 hours.	
Monitor circulation, possible shock treatment.	
If necessary oxygen respiration treatment.	
Contains isocyanates. May produce an allergic reaction.	

# **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: None.

(Contd. on page 6)

Printing date 25.11.2014

Revision: 25.11.2014

#### Trade name: Touch 'n Seal Mine Block Mortar

(Contd. of page 5)

• **5.2 Special hazards arising from the substance or mixture** During heating or in case of fire poisonous gases are produced. Danger of receptacles bursting because of high vapour pressure when heated.

#### 5.3 Advice for firefighters

• Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information Cool endangered receptacles with water spray.

### **SECTION 6: Accidental release measures**

6.1 Personal precautions, protective equipment and emergency procedures
Use respiratory protective device against the effects of fumes/dust/aerosol.
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
Isolate area and prevent access.

6.2 Environmental precautions:
Do not allow to enter sewers/ surface or ground water.
Inform respective authorities in case of seepage into water course or sewage system.
6.3 Methods and material for containment and cleaning up:
Allow to solidify. Pick up mechanically.
Absorb liquid components with liquid-binding material.
Dispose contaminated material as waste according to item 13.
6.4 Reference to other sections
See Section 7 for information on personal protection equipment.
See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

## **SECTION 7: Handling and storage**

### · 7.1 Precautions for safe handling

Use only in well ventilated areas.

Avoid splashes or spray in enclosed areas.

Information about fire - and explosion protection: Keep respiratory protective device available.

### • 7.2 Conditions for safe storage, including any incompatibilities

· Storage:

### • Requirements to be met by storerooms and receptacles:

Observe official regulations on storing packagings with pressurised containers.

Provide ventilation for receptacles.

Store in a cool location.

· Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from oxidising agents.

Do not store together with acids.

## · Further information about storage conditions:

Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.

(Contd. on page 7)

Printing date 25.11.2014

Revision: 25.11.2014

### Trade name: Touch 'n Seal Mine Block Mortar

Protect from heat and direct sunlight.

• 7.3 Specific end use(s) No further relevant information available.

# **SECTION 8: Exposure controls/personal protection**

• Additional information about design of technical facilities: No further data; see item 7.

(Contd. of page 7)

· 8.2 Exposure controls · Personal protective equipment: • General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin. **Respiratory protection:** Combined Organic Vapor and Particulate Respirator is recommended for use during all processing activities. · Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. · Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Eve protection: Contact lenses should not be worn. Safety glasses · Body protection: Protective work clothing · Limitation and supervision of exposure into the environment No further relevant information available. · Risk management measures See Section 7 for additional information. No further relevant information available. (Contd. on page 9)

## **SECTION 10: Stability and reactivity**

### · 10.1 Reactivity

· 10.2 Chemical stability

• Thermal decomposition / conditions to be avoided: To avoid thermal decomposition do not overheat.

10.3 Possibility of hazardous reactions

Toxic fumes may be released if heated above the decomposition point.

Reacts with strong oxidising agents.

Reacts with alcohols, amines, aqueous acids and alkalis.

- · 10.4 Conditions to avoid Store away from oxidising agents.
- **10.5 Incompatible materials:** No further relevant information available.

10.6 Hazardous decomposition products:

Carbon monoxide and carbon dioxide Nitrogen oxides Isocyanate Chlorine compounds Fluorocarbons

Phosphorus compounds

## **SECTION 11: Toxicological information**

· 11.1 Information on toxicological effects

· Acute toxicity:

· LD/LC50 values relevant for classification:

101-68-8 4,4'-methylenediphenyl diisocyanate

Oral LD50 2200 mg/kg (mouse)

13674-87-8 tris[2-chloro-1-(chloromethyl)ethyl] phosphate

Oral LD50 >2000 mg/kg (rat)

Dermal LD50 >2000 mg/kg (rabbit)

### Primary irritant effect:

• on the skin: Irritant to skin and mucous membranes.

• on the eye: Irritating effect.

· Sensitisation:

Sensitisation possible through inhalation.

Sensitisation possible through skin contact.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: Harmful

Irritant

Danger through skin adsorption.

Toxic and/or corrosive effects may be delayed up to 24 hours.

Suspected of causing cancer.

Sensitisation: May cause sensitisation by inhalation and skin contact.

Printing date 25.11.2014

Revision: 25.11.2014

#### Trade name: Touch 'n Seal Mine Block Mortar

(Contd. of page 10)

• Repeated dose toxicity: May cause damage to organs through prolonged or repeated exposure. Repeated exposures may result in skin and/or respiratory sensitivity.

CMR effects (carcinogenity, mutagenicity and toxicity for reproduction):

Carc. 2

# SECTION 12: Ecological information

· 12.1 Toxicity

· Aquatic toxicity:

### 13674-87-8 tris[2-chloro-1-(chloromethyl)ethyl] phosphate

LC50 1,1 mg/l (Oncorhynchus mykiss)

96 h

· 12.2 Persistence and degradability No further relevant information available.

· 12.3 Bioaccumulative potential No further relevant information available.

• **12.4 Mobility in soil** No further relevant information available.

• Ecotoxical effects:

· Remark: Harmful to fish

- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Harmful to aquatic organisms

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

### 12.5 Results of PBT and vPvB assessment

· PBT: Not applicable.

**vPvB:** Not applicable.

12.6 Other adverse effects No further relevant information available.

### **SECTION 13: Disposal considerations**

### · 13.1 Waste treatment methods

### · Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. After prior treatment product has to be disposed of in an incinerator for hazardous waste adhering to the regulations pertaining to the disposal of particularly hazardous waste.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.
